Trap shooting and pheasant hunt for
Craig Hospital

It's a warm sunny day with a
slight breeze a perfect day to
be outside and having fun. Trap
shooting, chasing pheasants, and watching the
dogs work the field doing what they
enjoy most. We have an experienced group
of patients from Craig Hospital all are
bird hunters and from all ~~parts~~ areas of the
country. We start with a tune up
at the trap range everyone gets divided in
groups and then it's down to the Lodge for
a great lunch. It's time to gather the
dogs, volunteers, and hunters and head to the
grass fields we head out with two hunters
at a time the dogs go to work
and the pheasants fly some end up in
the game bag and some to another Zip Code.
But this is about being outdoors and enjoying
the day the pheasants are a bonus everyone is
having a great time. A big thanks to Valhalla
Hunt Club, all the volunteers and Craig Hospital.
