Special thanks to Bob Adwar and Jesus Guerra and others for many of the photos throughout this report.
Dear River Deep Supporter,

As we look forward to a new year of helping veterans and other individuals with disabilities, I will be doing so in a new role. In 2021 I transitioned from President to Executive Director of River Deep Foundation, allowing me to focus on the bigger vision of the organization as we grow.

After navigating the ever-changing landscape of 2020 the team at River Deep Foundation entered 2021 with enthusiasm. We were able to serve our clients with a full schedule of outings and activities and kept them connected to the community that they have come to rely on. When the pandemic began, our clients were particularly at risk for many reasons. For some, staying isolated indoors is their daily routine which can easily lead to suicidal ideation or worse, succumbing to the despair. Our goal is to provide an outlet for them, so they can benefit from the healing effects of reengaging in life. When the very core of our mission is compromised due to other circumstances we have to balance the risks of isolation versus the need for connection. We appreciate our outfitters providing safe and quality outings to keep our clients engaged.

In 2021 we officially added three new organizations to our alliance of like-minded nonprofits, Denver Adaptive Divers, Belleview Spine and Wellness, and Comeback Yoga. The collaboration among the alliance members has been noteworthy and we are inspired to grow this model to the extent that it continues to serve our clients.

Having great programs is one thing, but reaching those who can benefit from them is another. Our relationships with the Soldier Recovery Unit (SRU) at Ft Carson and Operation TBI Freedom (OTF) are strong and they are vital sources of outreach to veterans in need. We are also now serving veteran clients referred by staff at the VA.

We were honored to be recognized by Operation TBI Freedom with a beautiful plaque. They provide many services to veterans who suffer with Traumatic Brain Injury and we are proud to be their main source of recreational outings. I am grateful to work with their case managers to offer a resource that keeps their clients active and engaged.

Thank you for the tireless efforts of everyone who helps make our programs a success. We foresee another successful year of healing lives, one adventure at a time!

Sincerely,

Bob Adwar
Executive Director
**MISSION**

The River Deep Foundation is dedicated to helping military veterans and other individuals who have experienced physical, emotional or psychological trauma—and those who assist them—to heal and re-engage in life through adventure, recreation and a network of support.

**PROGRAMS**

1. **Recreational Group Outings.** These outings facilitate healing through active re-engagement in life. Activities include blacksmithing, ballooning, archery, art classes, camping, cooking classes, equine assisted therapy, hunting, fencing, fishing, float trips, SCUBA instruction, trap shooting and more.

2. **Collaboration with an alliance.** Our alliance of complimentary 501c3 not-for-profit organizations share resources, knowledge and ideas with the goal of providing more efficient and effective programming and outreach.

**GUIDING PRINCIPLES**

We understand that if an individual is in crisis, the family is in crisis. We incorporate participation of families in our programs wherever possible.

We believe in consistency. We provide diverse, year-around opportunities for participants so they can avoid returning to a state of crisis and despair.

We believe in providing an instructional foundation. Our goal is to enable clients to explore new interests, start a new hobby and have the confidence to build on their experiences.

We believe in the power of cooperation. The collaboration within our alliance allows us to offer more resources to our mutual client base and provide a sense of community.

We believe in positive and inclusive experiences. Each individual is treated with dignity and encouraged to enjoy each experience without pressure.

**OUR STORY**

The journey to the formation of the River Deep Foundation (RDF) began over twenty years ago when small business owner and outdoorsman, Bob Adwar, in his role as Humanitarian Outreach Chairman for the Denver Chapter of Safari Club International (SCI), began organizing hunting and fishing outings for patients of Craig Hospital, the nation’s premier spinal cord injury rehabilitation hospital. The goal was to provide a relaxing day in the outdoors and show patients what they could accomplish, despite their new limitations. As injured and traumatized soldiers began to return from war zones in need of physical, psychological and emotional healing, the program expanded and started reaching out to veteran groups. As the number of outings, participants and collaboration with other nonprofits increased, it became vital to solidify our mission and brand the organization for easier communication and outreach. Thus, the River Deep Foundation was born. We have been operating as River Deep Foundation since 2017.
**OUTINGS PROGRAM**

Daily life for individuals with a debilitating injury or trauma can be stressful and isolating, leading to depression, anxiety, hopelessness, despair and, in too many cases, suicide. River Deep organizes and implements recreational outings—often in the outdoors—that provide a priceless day of peace, relaxation, camaraderie and fun in a safe, supportive environment. These outings are shown to have a therapeutic effect and facilitate the healing process, greatly improving one’s outlook and willingness to reengage in life. The River Deep Foundation funds and facilitates these group activities.

Our current roster of activities includes blacksmithing, ballooning, archery, art classes, camping, cooking classes, equine assisted therapy, hunting, fencing, fishing, float trips, SCUBA instruction, trap shooting and more. They are instructional in nature and can be enjoyed equally by novices and experienced individuals alike. Based on the logistics and location of the activity some outings are exclusive to our veteran clients or Craig Hospital patients, while others are open to both groups, and provide meaningful interactions between the two. Family members and caregivers are invited to attend our events unless there is a safety issue, as in the case of hunting trips. We do this to create a shared experience and connection in an environment free of daily stressors. Much of our outreach to potential participants is done through case managers at our alliance organizations like Craig Hospital and Operation TBI Freedom, as well as through collaboration with the Soldier Recovery Unit (SRU) at Ft. Carson (formerly known as the Warrior Transition Battalion) and the VA.
ARCHERY INSTRUCTION
RMS Gear in Lakewood Colorado hosts our participants and families for archery instruction.

ART CLASSES
The Art Students League of Denver and Cottonwood Art Center in Colorado Springs offer art classes like drawing, painting, book arts, ceramics and more.

COOKING CLASS
Cookbook Author Leslie Fangman holds classes on cooking wild game at the Specialty Appliance showroom in Greenwood Village.

EQUINE ASSISTED LEARNING
The U.S. Air Force Academy Equestrian Center Remount Foundation, hosts Equine Assisted Learning sessions. They help veterans learn and practice coping skills for symptoms of anxiety, PTSD, and depression.

FAMILY FISHING & FUN DAYS
The Swift Ponds facility at Colorado Youth Outdoors Facility is the perfect setting for a day of relaxation with families. The days includes fishing, boating, archery, lunch and community building.

HUNTING/TRAP SHOOTING
A variety of outfitters host us for hunts including pheasants, doves, turkeys, elk and wild hogs.

FISHING OUTINGS
Anglers of Honor and Lincoln Hills Fly Fishing Club provides access to premier waters for fly fishing and instruction. The facility has been restored to allow access for individuals with disabilities so it is perfect for our groups.

CAMPING/BALLOONING WEEKEND
The Pikes Peak Ballooning Society hosts a yearly Celebration-of-Honor Balloon Fly for veterans at Eleven-Mile State Park in Colorado. The day before, we host a camping trip for families with fishing and boating then everyone wakes up early to take flight.

FENCING INSTRUCTION
Denver Fencing Center provides fencing instruction to both veterans and Craig Hospital patient participants.
We were excited to welcome clients back to our most popular activities that had been canceled in 2020 due to the pandemic, including the camping/balloon fly weekend, holiday party, fencing instruction, and art classes at the Art Students League of Denver. Below are a few highlights of the year.

**Colorado River Float and Fishing Trip, Kremmling, CO**

In mid-August 2021, a group of former Craig Hospital patients (AKA Alumni) had the fantastic opportunity to float the Colorado River and fish. Bob Dye, also a former Craig Hospital patient was the guide and generous host of this yearly trip. The outing began at Muddy Creek Cabins in Kremmling, Colorado with dinner and a meet and greet. In the morning, the other guides, boats, and fly rods were prepared for the group’s scenic float trip down the River. The morning was nice and cool and the river was calm and peaceful. The group was excited to have caught some trout on the first day! The boats pulled onto a sand bank off the river to enjoy lunch together. After lunch, the group got back on the river, with anticipation to catch more fish. Later, they gathered at the cabins and everyone shared their experiences on the river then bunked down for a restful night. It was a fun, relaxing trip for all who attended. A big thank you to Bob Dye, the guides, the volunteers, and Blue Quill Anglers for this amazing adventure.

**Float and Fishing Trip, Montana**

River Deep Foundation sent four veterans from Operation TBI Freedom and two active duty soldiers from FT Carson Colorado to Ennis, Montana for some fly fishing down the Madison River. All of our anglers were able to use their new fly rods that were given to them by our Anglers of Honor program. The Madison River
is known for its trout fishing and the beautiful landscapes it flows through. Rainbow and brown trout were plentiful and even a couple of white fish were caught during their three days on the water. Not only did the participants catch fish but they were also able to photograph everything from eagles, ospreys, cranes, and deer all along the river basin. They also had the opportunity to do some exploring around Ennis and Virginia City. We want to give a BIG thank you to our host, Peter Pauwels and Camp Bullwheel for such a wonderful and relaxing trip.

Try SCUBA

In 2021 we were able to begin offering the Try SCUBA program through Denver Adaptive Divers (DAD) on a consistent basis. In the Try SCUBA program, instructors take participants one-on-one through every step in a relaxed and peaceful swimming pool environment. SCUBA is not only fun it is also a wonderful way to facilitate the healing process. For participants who would like to continue learning Scuba after the introductory class, Denver Adapter Divers will take them through an application process. Those who qualify will be provided the opportunity to go on an open water dive trip.

During 2021 a veteran client referred by Operation TBI Freedom, Samuel Hahn, participated in a Try SCUBA class and found that being underwater helps him regulate many of his physical and psychological injuries resulting from his time in combat. With a desire to move forward in his training, he qualified to attend DAD’s dive trip in Bonaire and became open-water certified. After that successful trip he hopes to become a dive buddy to help others reap the same benefits he has experiences. More details about Hahn’s journey can be found on our website blog. This is just one example of how our alliance member work together to help clients discover new paths toward healing.

Alliance Program

The Alliance program of River Deep in an important aspect to our organization. It is an innovative and exciting collaboration between distinct nonprofits who each work, in their own way, to re-acclimate, re-enable and re-engage veterans or other disabled individuals, and facilitate healing through an improved outlook and quality of life. While each group provides distinct programs, their client bases often overlap. The alliance provides an easy referral channel for connecting clients to other services. We welcome established and less established nonprofits. For the less established the alliance serves to help bolster their planning, programming and outreach as they grow towards self-sustainment. The members share knowledge, ideas and resources to avoid “reinventing the wheel” as challenges come up. Additionally, members connect their clients directly to the RDF outings program so they can enjoy the recreational activities we offer. Representatives from each nonprofit meet quarterly to discuss issues, ideas, challenges and needs. The groups operate under a shared understanding and commitment to collaborate for the health of their organizations and ultimately the good of their clients. We had well-attended meetings this year and loved to see the collaborations that have developed. The mission of each organization is outlined in the next section with updates included as relevant.
RDF officially welcomed three established nonprofit organizations into the alliance this year. Denver Adaptive Divers became an "official" alliance member in 2021 as did Belleview Spine and Wellness. In December, the alliance committee also welcomed Comeback Yoga to the group.

### Alliance Members - Missions & Updates

**Anglers of Honor**

Anglers of Honor (AoH) is dedicated to sharing world class, therapeutic fly fishing experiences with military service personnel and individuals with physical disabilities. The partnership with Kast King has provided fly rods to participants as well as other fundraising support. AoH has provided organizational and operational support for River Deep.

**Belleview Spine and Wellness**

Belleview Spine and Wellness offers 12 free chiropractic adjustments per lifetime for Veterans who do not have VA benefits or other insurance that covers Chiropractic. They take the time to educate Veterans and Service Members on insurance plans and walk them through the process of obtaining the benefits they have earned and are entitled to. They are proud to have provided over 600 adjustments and treatments at no cost to veterans last year. Their staff has been active volunteers with River Deep and we are thrilled to offer them as a resource.
Comeback Yoga
Comeback Yoga is a Denver-based 501(c)3 nonprofit that delivers free yoga classes to help military personnel, their families and supporters. They provide free, accessible, trauma-informed, science-based yoga classes to the military community to enhance overall health and quality of life. Their yoga instructors provide classes on-site, meeting the community where they are, such as the VA Healthcare System, VFW Posts, military installations and wherever a community of veterans requests their services. They also offer daily online live classes through YouTube that can be subscribed to via their website. We look forward to providing this activity as an option to our clients in 2022.

Craig Hospital
As a large, established organization focused on spinal cord and brain injuries, Craig Hospital is able to provide outreach, operational guidance, contacts and credibility to our programs. They have benefited by offering their recreational therapy clients expanded opportunities to participate in our diverse outings and activities. Due to the progression of the Covid variants in 2021, the understandably rigorous hospital policies did not allow for participation of Craig Hospital inpatients however, former patients from the community were welcomed to attend. We will welcome inpatients back to our outings when possible.

Denver Adaptive Divers
Denver Adaptive Divers (DAD) is a Colorado 501c(3) organization that provides support, education, specialized training and dive travel to qualified individuals with physical disabilities to enable them to become an integral part of the sport of scuba diving. They work with individuals with various disabilities including but not limited to spinal cord injuries, Multiple Sclerosis, amputees, visually and hearing impaired—to help them discover the freedom of movement under the water. They also offer a SCUBA diving training program that provides Open Water Diver certification.

Operation TBI Freedom
As the military program of Craig Hospital, Operation TBI Freedom (OTF) provides support for Veterans and active duty military personnel with traumatic brain injuries. We work with OTF on outreach to veterans who may like to participate in our activities to help with the depression, isolation and anxiety that can result from a TBI. River Deep provides the majority of OTF’s recreational outing programs as a complement their other support services.

Quality of Life Plus (QL+)
Quality of Life Plus’ (QL+) mission is to foster and generate innovations that aid and improve the quality of life for those who have served our country. To accomplish this they work with engineering students at
top universities on specific adaptive challenges, improving on current designs or creating new ones. Locally, they work with the Colorado School of Mines and will soon be working with CU Boulder. The close consultation with RDF helps identify more real world possibilities for adaptive equipment and the ability to further collaborate directly with the end-users. Our disabled participants benefit from the ability to test and use the equipment allowing them to more easily participate in activities. RDF staff and board members are enthusiastically hands-on with helping to facilitate these projects, from communicating with the students to testing designs and recommending improvements. Quality of Life Plus is also working with Denver Adaptive Divers in developing dive computers that can measure blood pressure underwater. There is anecdotal evidence that SCUBA diving helps with the headaches suffered by those with Traumatic Brain Injury (TBI) and helps them regulate in other ways. This device will help provide additional information about how the body reacts while diving and will also allow dive buddies to monitor blood pressure in order to recognize a diver in physical or emotional distress and guide them to safety.

**SCI Humanitarian Outreach Program**

The outings program was initiated 20 years ago as a part of Denver SCI’s Humanitarian Outreach Program (SCI HOP). In 2017, a stand-alone nonprofit called River Deep Foundation was formed and the outing programs were pulled under this umbrella. Denver SCIHOP remains aligned in our mission and provides us with support, visibility and outreach to the membership of SCI.

**Victory Service Dogs**

Victory Service Dogs (VSD) helps local veterans affected with PTSD or other disabilities gain improved quality of life through partnership with a service or support dog. They were able use our shared expertise, consulting and contacts when they started out and we have sponsored a couple of veteran/dog teams in training. VSD is growing rapidly and they now have an operations staff, trainers, a continuous group of applicants, trainee teams and engaged community support. They now also provide service dogs to children and first responders. Their training programs are being updated to meet Assistant Dogs International (ADI) standards.
2021 PROGRAMMING REPORT

Statistics reflect the fiscal year of October 1, 2020 - September 30, 2021.

Programs
Archery Instruction: 3
Art Classes: 11
Blacksmithing: 10
Cooking Class: 1
Equine Assisted Learning: 7
Family Fishing and Fun Days: 2
Fencing: 2
Fly Fishing: 4
Hunting: 7
Try SCUBA: 5
Ballooning and Camping Weekend: 1
River Float and Fishing Trips: 2
Wild Game Cooking Class: 1

Total Programs: 56

We generate outing reports after each program with a written detailed summary and photographs that are posted to our website, social media and sent to stakeholders.

Program Participants
Total Client Participants: 696
(Includes clients and family members)

Total Overall Participants: 1626
(Includes support staff, defined as volunteers, guides, instructors, and other non-client attendees)

Breakdown
Military -
  Veterans: 312
  Active Duty: 96
Craig Hospital Patients: 6
Craig Hospital Alumni & Others with Disabilities: 8
Family Members: 272
Support Staff: 234

Total Program Hours: 400

Total Client Participant Hours: 11,571
(Includes clients and family members)

Total Overall Hours: 13,218
(Includes staff, volunteers, guides, instructors, and other non-client attendees)

Numbers reflect total attendance rather than attendance by an individual participant (e.g. if an individual client or staff member was at 2 outings they are reflected 2 times in these numbers).
PROGRAM EVALUATION

River Deep is dedicated to providing the highest quality experience possible for our program participants. We work diligently to tailor and design events that specifically target the physical, social and emotional needs of our participants. In an effort to make the River Deep experience effective and positive, we are continually evaluating and measuring our impact through informal check-ins with participants and family members/caregivers, as well as through a more formal survey at the end of each outing. We revise this evaluation process as we learn, in order to portray the most accurate impact of the programs. We use the feedback to help us refine and enhance the experiences for clients and to qualify and quantify the impact for stakeholders. This year we changed some of the survey questions in order to best understand if our stated mission and goals are being met.

We routinely receive glowing testimonials and accolades through our informal check-ins with participants. Below are the results from our formal evaluation tool. On a scale of 1 (Strongly Disagree) to 5 (Strongly Agree) participants reported the following average scores after attending our outings in 2021:

**Program Survey Results**  
*Based on 151 Total Surveys Received*

FUNDRAISING EVENTS

4th Annual Sporting Clays Fundraiser
A group of wonderful people gathered to enjoy the great weather and good food while supporting the River Deep Foundation. Together, we raised $17,750 at this event. Everyone had a fun time, participating in some friendly competition shooting clays. Lunch, donated by the American Beef Battalion, was a delicious treat, featuring rib-eye steak with corn, mashed potatoes, and dessert. The fundraiser ended with some prizes for the best clay shooters and others participating in the event. It was incredible to have another successful event. Each year this fundraiser gets better with the funds raised going directly to providing outings for wounded veterans and individuals with disabilities. A big thank you to all of the sponsors, volunteers, participants, and the River Deep Foundation's incredible supporters.

Golf Tournament hosted by Rocky Mountain Harley Davidson
River Deep Foundation was honored to be chosen by Rocky Mountain Harley-Davidson (RMHD) to be the beneficiary of their 20th Annual Golf Tournament Fundraiser. The beautiful July day opened with a ceremonious presentation of the colors by the color guard from Ft. Carson SRU. Command Sergeant Major King then spoke about River Deep and how important our programs are to helping the soldiers while they are active duty and veterans. We began the tournament with over 100 golfers participating. The event raised over $16,225 for River Deep Foundation. We are so grateful to Kathy and Marina at RMHD for their support and their entire staff, who volunteered on their day off to assist with the event as well as the sponsors and participants who made the day possible. Mike and the staff at Meridian provided a wonderful lunch and as always, impeccable service.
COMMUNITY SUPPORT

Specialty Appliance Donation
For several years, Specialty Appliance has been kind enough to donate use of their Greenwood Village showroom to us for our wild game cooking classes. This year they approached us with offer to donate appliance packages to veterans as a thank you for their service.

On December 2nd they held a spectacular holiday party at their showroom for colleagues and partners in the Kitchen and Bath industry. Wonderful food, music, and festive company was plentiful. During the event, the packages, donated by Whirlpool, were presented to three veterans who are clients Operation TBI Freedom. Each package is worth $3,200 toward the Whirlpool appliances of their choosing. The recipients were very grateful and appreciative for the gift that helped make their holidays extra special.

The event also included a silent auction, the proceeds of which were donated to River Deep Foundation. We would like to express out sincere gratitude to everyone at Specialty Appliance and Whirlpool for their continued support, kindness and generosity.

Retailer Corporate Giving Programs
We also get donations through community programs at retail stores that give a percentage of purchases to nonprofits. River Deep Foundation can benefit from purchases that supporters make at local grocers like Safeway and King Soopers and from online purchases through the Amazon Smiles program. Supporters can find information about enrolling on our website. Monies received by RDF from these sources are currently small but consistent and there is a lot of room to increase these "passive" donation opportunities.
MARKETING/ADMINISTRATIVE & DONOR OUTREACH UPDATES

Donor Database
In 2021 we finalized the transition of our donor database to Flipcause and began using it to streamline campaigns and track donations. It also allows us to create peer-to-peer campaigns. We are discussing the best peer-to-peer fundraising options to expand our outreach.

Digital Marketing
We update the "Outing Summaries Blog" weekly on the website which included photos and summaries of each outing. Fundraising and other event updates can be found on the News/Updates blog page. This information is also shared on social media utilizing our Facebook and Instagram accounts. Quarterly newsletters are sent via email to update supporters about events, outings and alliance members.

Grant Writer
We have hired a grant writer who has the experience, skill and knowledge to identify and apply for grants that we may qualify for.

GOALS/OPPORTUNITIES
We have reached a critical point where we have a full calendar of programs that are running smoothly serving a good number of clients. Up until this point, however, RDF has been operating with small group of staff and contractors and our Executive Director, Bob Adwar is doing much of the heavy lifting of the organization.

Our main goal is raise enough funds through grants, individual and corporate donations so that we may hire a staff member with a diverse skill set to assist with operations, outing logistics, fundraising and more. Without this additional support we will be unable to grow and serve more clients.

We have a limited donor base and there is a tremendous opportunity to expand our donor outreach. We have considered peer-to-peer fundraising as mentioned above and are open to input regarding other ideas and contacts.
A very special thank you to Mr. Robert F. Smith for his personal commitment to providing opportunities for deserving individuals. Mr. Smith’s generosity makes an immediate difference in the lives of our participants. We greatly appreciate his kindness.
PARTNERS/OUTFITTERS
Our partners and outfitters are a vital part of our programming and we would like to acknowledge their assistance in making our outings successful.
