Equine Assisted Learning

Another amazing day at Air Force Academy! We had six Operation TBI Freedom staff members participate in the program in order to better understand the benefits and power of Equine Assisted Learning and how this type of therapy can positively impact our clients. We also learned more about the Remount Foundation organization as a whole and how they serve active-duty military, veterans, first responders and their families with free equine-assisted therapeutic activities within a healing, natural environment and a supportive community to empower them to heal physically, mentally and spiritually. We are so grateful to partner with them.
