

River Deep is a newly established collaboration of like-minded organizations working exclusively to serve individuals with disabilities, many of whom served or are serving in the military. Their common goal is to acclimate, enable and engage their clients as a way to assist in the healing process, improving outlook and quality of life.

SCI HOP is a program within this collaboration that organizes group outings for clients across all the organizations to help toward this goal.

Participants: Operation TBI and Ft. Carson WTB

Wild Pig Hunt in Texas

Vernon Texas and Amy Duncan were hosts to four disabled veterans and two active duty Soldiers for a wild pig hunt over the June 16th weekend. As soon as the Soldiers arrived on Friday night, they were greeted at the local Walmart by employees that anticipated their arrival as arrangements had already been made by the local game warden. When the team arrived at the bunk house they unloaded their gear and went right into an evening pig hunt.

Over the three days of hunting on three different ranches and properties, the team saw jackrabbits, coyotes, and feral hogs. The team was successful in harvesting four hogs along with other small game. Time was also spent enjoying the beautiful Texas landscape, swimming, and making relationships with new friends. The entire weekend was full of experiences that no one will forget. The team was very grateful for the opportunities they had and we look forward to sending more soldiers to future events.
