

River Deep is a newly established collaboration of like-minded organizations working exclusively to serve individuals with disabilities, many of whom served or are serving in the military. Their common goal is to acclimate, enable and engage their clients as a way to assist in the healing process, improving outlook and quality of life.

SCI HOP is a program within this collaboration that organizes group outings for clients across all the organizations to help toward this goal.

Anglers of Honor at Lincoln Hills

It's spring in the Rockies, the weather was perfect and the trout were hungry. We had a large group of participants last Saturday, all anxious to learn how to fly fish and hit the river and ponds. We have the expert guide staff from Anglers of Honor, who start with the fundamentals of casting, gear and flies. The group paired up with the guides with some headed to the river and the others to the ponds. The morning is filled with smiles and satisfaction and everyone caught a trout, even some big ones.

It's time for lunch and everyone headed up to the eco center deck and treated to a delicious meal from Hardi at the Ranch at West 40 Restaurant. A big thanks to all who made this possible, all the great organizations, volunteers and participants involved.

Bob Adwar
