

River Deep is a newly established collaboration of like-minded organizations working exclusively to serve individuals with disabilities, many of whom served or are serving in the military. Their common goal is to acclimate, enable and engage their clients as a way to assist in the healing process, improving outlook and quality of life.

SCI HOP is a program within this collaboration that organizes group outings for clients across all the organizations to help toward this goal.

**December 9th, 2018**

**Location: RMS Gear, Wheat Ridge, CO.**

**Hosted By: River Deep and SCI HOP**

**Participants: Craig Hospital and Operation TBI Freedom**

### **Archery Outing with Craig Hospital and Operation TBI Freedom at RMS Gear**

We have a full house today of men, women and children all anxious to learn archery from the expert instructors from RMS Gear. We start with the range rules and fundamentals. Next, we move up to the line with the instructor and are given the choice of shooting a recurve or compound bow, and figure out the appropriate draw weight.

Arrows fly toward the targets and the smiles are right behind. We also have engineering students from the School of Mines who are designing new adaptive equipment for archery, fishing and shooting. The student will be working with us all year and will be attending many of our outings. We are all looking forward to seeing the end results. Quality of Life Plus is the organization that made this possible.

It's lunch time and we are treated to some great barbecue from Jim 'N Nick's Bar-B-Q. It has been a wonderful day for all and a big thanks to all who helped make it possible.

Bob Adwar  
River Deep, President  
SCI HOP, VP/Humanitarian Chairman
