

River Deep is a newly established collaboration of like-minded organizations working exclusively to serve individuals with disabilities, many of whom served or are serving in the military. Their common goal is to acclimate, enable and engage their clients as a way to assist in the healing process, improving outlook and quality of life.

SCI HOP is a program within this collaboration that organizes group outings for clients across all the organizations to help toward this goal.

March 10th, 2019

Location: RMS Gear, Wheat Ridge, CO.

Hosted By: River Deep and SCI HOP

Participants: Craig Hospital & Operation TBI Freedom

Archery at RMS Gear in Wheat Ridge, CO.

We have a packed house today at RMS Gear. Men, women, children, along with the expert staff, will be using recurve bows, a few compounds and one crossbow. Everyone moves up to the line and is fitted with a bow along with some personalized instruction. The fun begins no matter what level you are at. Everyone is having a great time.

After a couple of hours of slinging arrows, we were ready for lunch, which was provided by The Ranch West 40 Restaurant (who never disappoints us!). We also have engineering students from the School of Mines who are designing new adaptive equipment for archery, fishing and shooting. The students will be working with us all year and attending many of our outings. We are all looking forward to seeing the end results. Quality of Life Plus is the organization making it happen.

It's been a fun day and a big thanks to everyone who made it possible.

Bob Adwar

River Deep, President

SCI HOP, VP/Humanitarian Chairman
