

River Deep is a newly established collaboration of like-minded organizations working exclusively to serve individuals with disabilities, many of whom served or are serving in the military. Their common goal is to acclimate, enable and engage their clients as a way to assist in the healing process, improving outlook and quality of life.

SCI HOP is a program within this collaboration that organizes group outings for clients across all the organizations to help toward this goal.

Participants: Operation TBI Freedom and Soldiers from Ft Carson WTB

Archery instruction and lunch

We had an enthusiastic group of Vets, spouses and children ready for some archery instruction with the best instructors and facility in Colorado.

Tom Clum and his staff took us thru all the steps of traditional archery. The group was fitted with a recurve or longbow, with basic form and technique explained. Everyone stepped up to the line with their instructors arrows flying and smiles followed. There is no sign of slowing down, everybody is having a great time learning, shooting, and improving.

As the food arrived for lunch, it looked like we would have to pry the bows out of the participants hands. It's been a great day and it looks like many have found a new sport.

A big thanks to RMS Gear and staff. Happy New Year!

Bob Adwar
