

River Deep is a newly established collaboration of like-minded organizations working exclusively to serve individuals with disabilities, many of whom served or are serving in the military. Their common goal is to acclimate, enable and engage their clients as a way to assist in the healing process, improving outlook and quality of life.

SCI HOP is a program within this collaboration that organizes group outings for clients across all the organizations to help toward this goal.

February 24th, 2019

Location: Vahalla Hunt Club, Vahalla, CO.

Hosted By: River Deep and SCI HOP

Participants: Craig Hospital

Trap Shoot and Pheasant Hunt for Craig Hospital

There is a couple of inches snow on the ground, the sky is blue and the sun is out. We will be using two track chairs to navigate the terrain. One of the chairs is brand new and is on loan to us from Rocket Mobility. Everyone is anxious to try it on the snow covered fields. We start with some trap shooting, the School of Mines is with us and will be testing out a new version of a shooting rest. The clays fly and are consistently being broken as we have some experienced shooters.

After the Trap Shooting is done we headed down to the clubhouse for lunch and discussion on all the new equipment. After lunch its time to head up to the fields in search of pheasants with the pointing dogs leading the way. We manage to put a few in the pot.

It's been a great day and a big thanks to all the groups and volunteers who made it possible.

Bob Adwar

River Deep, President

SCI HOP, VP/Humanitarian Chairman
