Bob Adwar bob@scihop.org

The programs in River Deep Alliance all focus on healing and support from physical, psychological or emotional injuries and trauma sustained during military or civilian life. This is accomplished through activities and services that enable an individual to re-acclimate and re-engage in life. A positive outlook is crucial in the healing process and these activities and services have proven effective for improving outlook and day-to-day quality of life.

Group outings are funded, planned and organized by River Deep with assistance from the SCI Humanitarian Outreach Program (SCI HOP) who handles much of the logistics.

Texas Wild Pig Hunt - June 7-10, 2019

Location: Vernon, Texas

Hosted By: River Deep Alliance and SCI HOP

Participants: Craig Hospital and Operation TBI Freedom

What a weekend we had stalking and hunting wild pigs in Vernon, Texas! We arrived in Vernon Friday evening and couldn't wait to get out and start stalking the wild pigs. Our first veteran was able to take down a 130 lb. sow, shortly before dark. The weather during the late afternoon and early mornings was ideal for being out in the Texas heat.

Early Saturday morning, after breaking up into two groups, we headed out into the brush to do some more spotting and stalking. Shortly before noon, our second veteran was able to take a 150 lb. boar. That evening wasn't as fruitful but everyone had a good time sneaking through the brush.

Sunday, our last day, we headed out at the crack of dawn to get jump on the day and hopefully a couple pigs for our remaining veterans. We started out early Sunday morning, and by the evening, the hunt is a bust for our group, but a great time was had by all.

A huge thank you to our host, Amy Duncan, and her to guides Zach and Andrew who helped our veterans all weekend with the hunt.
